

Algebra and Model Theory. – Novosibirsk: Edition of NSTU, 1997. – 243 pp.

Contents

- R.D.Arefyev, On the monotony property for weakly o-minimal models ... 8**
- B.S. Baizhanov, Two theorems on o-minimal theories ... 16**
- R. El Bashir, T. Kepka, Equationally Complete Classes of Semirings ... 27**
- S.A. Berezin, On subalgebras of iteration algebras of recursive functions ... 33**
- I. Chajda, J. Zednik, On n-permutability of varieties having p-determined congruences ... 39**
- K. Denecke, D. Welke, Solid varieties of partial algebras ... 43**
- A.A. Ivanov, Finite covers with linking equivalence relations ... 70**
- B.Sh. Kulpeshov, Some properties of \aleph_0 -categorical weakly o-minimal theories ...78**
- S.I. Mardaev, Modal Π -schemas ... 99**
- Ya.L.Mordvinov, On simple skeletons of congruence-modular varieties ... 110**
- Sh. Mynbayeva, Some problems of weakly o-minimal binary theories ... 117**
- A.G. Pinus, On algebras of conditionally term functions ... 123**
- A.G. Pinus, Inner isomorphisms and conditionally rational equivalence to unars and fields ... 131**
- K.N. Ponomaryov, Covers of algebraic varieties ... 143**
- A.M. Popova, Description of groups of units for irreducible matrix rings ... 152**
- Branimir Seselja, On the congruence intersection property ... 160**
- S.V. Sudoplatov, Trigonometries with Sin and Cos ... 169**
- Andreja Tepavcevic, On representation of lattices by weak congruences and weak tolerances ... 173**
- J. Usan, n-groups, $n \geq 2$, as varieties of type $\langle n, n - 1, n - 2 \rangle$... 182**
- V.V. Verbovsky, On formula depth of weakly a-minimal structures ... 209**
- F. Wagner, Engel elements in groups with the minimal condition on centralizers ... 224**
- Ch. Wolf, Many-sorted abelian algebras in congruent modular varieties ... 230**
- Abstracts ... 238**
