

Algebra and Model Theory 8. – Novosibirsk: Edition of NSTU, 2011. – 143 pp.

Contents

Introduction ...3

School Programme ... 4

K.A. Baykalova, Limit models of theories of Abelian groups ... 9

E.V. Grachev, Groups of external automorphisms of two free Burnside groups ... 13

F.A. Dudkin, On abstract commensurator of Baumslag-Solitar groups ... 16

A.N. Koryukin, A.V. Chekhonadskih, Extreme root locations of real polynomials and stabilization of 3-mass control system ... 19

M. Kotov, Algebraic geometry over some topological algebras ... 40

A.A. Mishchenko, A.V. Treyer, On satisfiability of graph's formulas on partially commutative nilpotent group of class 2 ... 48

E.V. Ovchinnikova, Extensions of partial 1-isomorphisms of finite predicate structures ... 60

A.G. Pinus, On the lattices of algebraic subsets of universal algebras ... 67

R.A. Popkov, The classification of countable models complete theories of one-place predicates with substitution of the limited order ... 73

E.N. Poroshenko, Bases for partially commutative nilpotent Lie algebras ... 83

A.A. Stepanova, N.V. Trikashnaya, On Abelian semigroups ... 87

S.V. Sudoplatov, On Rudin–Keisler preorders in small theories ... 94

S.V. Sudoplatov, On Hrushovski fusions for predicates and their envelopes ... 103

E.I. Timoshenko, On Remeslennikov's conjecture for partially commutative metabelian groups ... 107

A.N. Shevlyakov, Algebraic geometry over linear ordered semilattices ... 116

I.V. Shulepov, Predicate Similarity of Limit Models with Identifications of Signature Symbols ... 132

Abstracts ... 139
