

Algebra and Model Theory 10. – Novosibirsk: Edition of NSTU, 2015. – 220 pp.

Contents

Introduction ...	3
School Program ...	4
70th anniversary of Professor E. I. Timoshenko (Russian) ...	8
70th anniversary of Professor E. I. Timoshenko (English) ...	12
70th anniversary of Professor E. A. Palyutin (Russian) ...	16
70th anniversary of Professor E. A. Palyutin (English) ...	19
K. A. Baikalova, Distribution of the number of countable models of the acyclic graph theories ...	22
B. S. Baizhanov, Condition for the existence of conservative extension of a model of complete theory ...	29
M. I. Bekenov, The concept of elementary embeddability in the class of models of a countable 1st-order language ...	39
A. V. Chekhonadskikh, On expression of SISO system control parameters through the system pole coordinates ...	45
Yu. A. Chirkunov, Generalized equivalence transformations and their role in the construction of submodels ...	52
D. Y. Emelyanov, Algebras of distributions of binary isolating formulas for embedded equivalence relations ...	59
S. S. Goncharov, B. N. Drobotun, A. A. Nikitin, To a problem of content of a logical component for a school mathematical education ...	71
E. V. Grachev, A. M. Popova, About Automorphism group of ring ZS_4 ...	78
E. V. Grachev, A. M. Popova, Automorphisms of integer group rings ...	85
Y. Kiouvrekis, P. Stefaneas, Topological Semantics in Institutions with Proofs ...	92
B. Sh. Kulpeshov, Countably categorical weakly ω-minimal theories of convexity rank 2 ...	101
K. A. Meirembekov, Definably minimal fields of characteristic zero ...	115
E. A. Palyutin, Elementary theories of Abelian groups with distinguished Subgroups ...	119
A. G. Pinus, Quasiorders and monoids of sets (algebras) transformations ...	130
L. N. Pobedin, Comparative analysis of the classical infinity and the alternative one ...	135
K. N. Ponomarev, Descending invariant subgroup series of a profinite group ...	139
R. A. Popkov, Distributions of countable models of theories of unary predicates ...	157
E. N. Poroshenko, Universal equivalence in some classes of partially commutative Lie algebras ...	160
S. V. Sudoplatov, Generative classes generated by sets of diagrams ...	163
N. V. Timofeeva, A note on homological dimension of a family of coherent sheaves ...	175
E. I. Timoshenko, On an embedding of partially commutative metabelian group in a group of matrices ...	179
V. V. Verbovskiy, Combining stability and quantifier elimination ...	192
A. A. Vikentiev, V. V. Fefelova, The concept of elementary embeddability in the class of models of a countable 1st-order language ...	197
A. V. Zenkov, On congruences of m-groups ...	210
Abstracts ...	215
